Keeping developers informed

EMAIL NEWSLETTERS — SINCE 2011

MEDIA KIT
Q1 2024 (JANUARY - MARCH)

[COOPERPRESS.COM/MEDIAKIT](https://cooperpress.com/mediakit)

WHAT WE DO

Cooperpress publishes weekly email newsletters to an audience of hundreds of thousands of developers & software engineers.

We help developers and their companies stay up-to-date — informing them of the latest developments on the tools and technologies they use every single day. If you want to reach an audience of developers who are keen to try new tools, services and technologies — we can help.

Our primary focus is the publication of weekly email newsletters — with high levels of engagement and net weekly open rates typically between 35%-60%, our sponsors typically see great levels of interaction from our readers.

Sponsors benefit not just from appearing within our publications, but things we share frequently get wider attention across social media and on sites like Hacker News and Reddit.

A range of opportunities are available for companies interested in reaching software developers in a variety of niches, both in terms of sponsorships and content development. Due to high levels of interest, we maintain a waiting list and take reservations in advance — so reaching out early is advised.

MEET THE TEAM

Founded in 2011, and built upon a prior decade of work in developer media, Cooperpress is a software-development focused publisher, specializing in the publication of email newsletters and news digests.

Our small team is formed of a core group based in the United Kingdom, supported by external remote curators in the US, Canada and Europe — together we help keep hundreds of thousands of subscribers informed on a weekly basis.

We're always happy to talk! You can find all of our contact details on our site or you can email the team directly:

Editorial Director

Olly Hanstock
Customer Relations
Manager

Laura Cooper
HR Manager

RECENT SPONSORS

Our sponsors cover a wide range of the technology industry including SaaS, infrastructure, database, recruitment, and educational services.

Here's a selection of some of the companies we work with:

TESTIMONIALS

We get new customers and key business insights on what a savvy audience of potential customers want to see from us.

Marc Grabanski
Frontend Masters

The wide range of well-edited newsletters helps us to target the audience we want. Excellent customer support too.

Yvonne Karwig
Studio 3T

...a big plus to companies like us is being able to target very specific types of customers.

Umair Shahid
2nd Quadrant

Their focus on multiple technologies delivers targeted exposure and great results.

Laurie Coffin
Percona

Say hello to our 461,929 subscribers

LOCATIONS

Our weekly newsletters reach subscribers in over 165 countries. Here are the most common:

North America 50%

Europe 26%

5% UK | 3% Germany | 3% France | 3% Poland

Asia 19%

Rest of World 5%

JOB ROLES

We send our digests to folks in a variety of roles, including key decision makers. Here's just some of the people you'll be reaching:

Developers

Engineers / Architects

Founders / Directors

CTO

COMPANIES

Our subscribers work at some of the world's leading technology companies. Including the following:

Google

Meta

Bytedance

Goldman Sachs

PayPal

Nvidia

Microsoft

IBM

SPONSORSHIP TYPES

Here's a condensed overview, highlighting the typical ways in which a sponsor item can appear. *Note: This is an illustrative mock-up, and publications do vary.*

1 Primary Sponsorship

A single sponsor receives the high-placement sponsor slot in an issue, featuring a linked headline (up to 60 character title), image (266x200 pixels max) and summary (100-250 characters), along with company name.

- * Primary sponsors also have their logo (linked) included in the masthead of the issue (pictured, right).

2 Sponsored Links

Marked as sponsored and sits along side other items in an issue. In addition to a linked headline (up to 70 characters), some descriptive text (up to 120 characters) can be included.

3 Job & Recruiter Listings

For jobs (full-time, part-time, remote or freelance) or job-related services of interest to developers — such as recruitment services. Listings include a linked headline (up to 65 characters) and description (up to 130 characters).

4 Classifieds

See next page for more on our new classifieds listing section, available in select publications.

All of our publications have slightly different visuals, units, approaches, quotas and setups. Refer to cooperpress.com/specs for our most up-to-date insertion specifications.

Any changes or cancellations to listings requires at least one week's notice.

CLASSIFIEDS

Strich brings fast & reliable 1D/2D barcode scanning to the web. You don't need a native app to scan barcodes. Free demo, 30-day trial.

Level up your career with these **free AI focused courses** covering prompt engineering, Dall-E, Chat-GPT & LangChain.js. **Get an extra 10% off Pro.**

CLASSIFIEDS

A **new** listing section found in select publications. Each classified can be used to promote a wide range of things, such as events, jobs, recruitment services, tools, and more.

Each individual listing is typically up to 140 characters, contain a single link at any location within the section, and can feature one optional emoji at the start.

An example of what the Classifieds section looks like can be seen opposite.

Availability:

Classified listings are currently available in three of our weekly newsletters. These include Golang Weekly, Node Weekly, and React Status.

All of our publications have slightly different visuals, units, approaches, quotas and setups. Refer to cooperpress.com/specs for our most up-to-date insertion specifications.

Any changes or cancellations to listings requires at least one week's notice.

CLASSIFIEDS

 Hired makes job hunting easy-instead of chasing recruiters, companies approach you with salary details up front. [Create a free profile now.](#)

"In the beginning there was stdout..." Stop sampling, [get Axiom — logging and tracing re-invented.](#)

[Emerge](#) is looking for a [Senior Software Engineer \(Frontend Lead\)](#). Come lead Emerge's web platform, used by teams like DoorDash, Square, Dropbox & Airbnb (our stack: Next.js, React, TS, Vercel).

Classifieds is a way to share projects, services, events, or jobs you may find useful, replacing our job listings section.

NEWSLETTER PROFILE:

JS JavaScript Weekly

Our most popular newsletter, aimed at JavaScript, TypeScript, and web developers.

Launched in November 2010, JavaScript Weekly was our second newsletter, but quickly became our most heavily subscribed and best known in the rapidly evolving JavaScript community.

JavaScript Weekly is aimed at JavaScript developers and web developers with an interest in JavaScript, Angular, Vue.js, React, Node.js, and related technologies.

JavaScript Weekly

Transformers.js 2.7: ML for the Web, Now with Text-to-Speech —

[Transformers.js](#) provides access to machine learning models directly in the browser for [all sorts of tasks](#) and v2.7 introduces audio generation ([live demo](#).) The [Web Speech API](#) remains the natural choice for this task *for now*, but the ML approach will only continue to offer greater opportunities over time.

JOSHUA LOCHNER

🔥 Web Components Will Outlive Your JavaScript Framework —

It's a spicy opinion piece but I think Jake has earned the right after his [fantastic posts on CRDTs](#) in which he focused on using vanilla JS web components rather than a system like React. Here, he explains why.

JAKE LAZAROFF

Jake's post fuelled [an extensive Hacker News discussion](#) touching on everything from MDX and [htmlx](#)'s role, to state management and the 'shallow' nature of the Web Components API as-is.

Production Ready Postgres at Your Fingertips —

Deploy a faster and more reliable Postgres cluster. Run in the cloud of your choice with management, backups, and production features handled for you. Get started with less than 5 minutes. [Try it today](#).

CRUNCHY BRIDGE SPONSOR crunchybridge

Yarn 4.0 Released —

Starting life as an [npm](#) alternative that resolved several of its major pain points, Yarn remains a popular choice and v4 introduces a new 'hardened mode' to protect you from various security issues, boasts an improved constraints engine, and has [performance \(almost\) on par with npm](#).

MAËL NISON

Node v21.1 (Current) Released with ESM Detection Feature —

"The new flag `--experimental-detect-module` can be used to automatically run ES modules when their syntax can be detected. ... We hope to make detection enabled by default in a future version.."

MICHAËL ZASSO

The React team has announced the much anticipated [Server Actions](#) and [Client Actions](#) features are now available in [React Canary](#).

NEWSLETTER PROFILE:

Frontend Focus

A newsletter for those in the web design, web development, and browser-based technology spaces.

Frontend Focus, curated by Chris Brandrick, covers HTML, CSS, browsers and related technologies that make up the modern web experience.

The newsletter targets web developers and designers, with a focus on web browser technology and the wider web platform.

ORDER PROCESS

Interested in advertising with us? Here's how it works.

REQUEST SENT

If you're reading this then we're now taking requests!
You can request listings with our sales team.

ORDER CONFIRMED

Your schedule will be put together based on your request(s) and our availability. Once you've confirmed the schedule is ok, we'll commit the listings and issue an invoice. We'll also offer advice to ensure your listings are seen by the most suitable audiences. **Note: If we don't hear back from you within seven days, Cooperpress may release your booking.**

MATERIAL DOCUMENT

We will send over our material documentation, outlining character count, how your listing should be formatted, along with some helpful advice and pointers.

ADVERTISING MATERIAL

You'll add your desired listing copy, links and associated imagery to the document we share with you.

LISTING PREVIEW

We'll send over a visual confirmation of your ad, showing a *representative* sample of how it will look in-situ. Note: All material is subject to change.

LISTING CONFIRMED & RUNS

Once you've confirmed and signed-off on your listing it will be delivered to our email subscribers and listed on our site. Note: that once confirmed any changes or cancellations require at least one week's notice.

REPORT

Once your campaign has concluded you'll receive a thorough report, detailing clickthrough data and performance.

When requesting a proposal, let us know which dates work best for you — we can be flexible if you're able to provide a general outline of your needs.

Material must be received the Friday *before* publication, so that it can be reviewed for format and tone. We will send reminders, and a visual proof of your advertisement ahead of your campaign. We're always happy to advise on what content will work best with our different audiences, as results can vary.

If material is not supplied in time for publication, but we have existing material from you that we deem suitable, we reserve the right to use it. Cancellations or changes require a week's notice.

Q1 2024 is 13 *working* weeks in length, and is outlined below. The publication calendar below outlines our schedule for the second quarter. All publications are sent weekly.

SPONSORSHIP REPORTS

Our advertisers receive sponsorship reports detailing the performance of any listings booked.

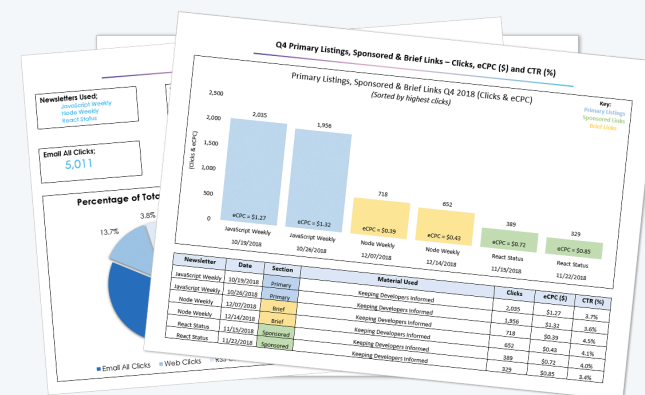

Reports will be sent following the end of each quarter by our in-house data analyst, Olly Hanstock. Alternatively, reports are made available on request.

Typically a report will contain the following:

- Tracking statistics for your listings
- General statistics on all our newsletters
- Tips to improve future performance
- Summary of overall performance

Olly Hanstock
Customer Relations Manager

"This is very helpful. Appreciate the quick turnaround."
Casey Crowder - Sencha

"Thank you for sharing all the statistics with me. It is very helpful."
Kasia Hoffman - Cloud66

"It's really useful to see it all broken down so clearly"
Jonny Blackler - White October Events

"Very detailed and useful report."
Artem Govorov - Wallaby.js

TERMS

If you prefer to operate by IAB Terms & Conditions, let us know as we can accommodate this.

Cooper Press Ltd. (the Publisher) is a publisher of digital publications, including JavaScript Weekly, Frontend Focus, Node Weekly, React Status, Ruby Weekly, Postgres Weekly, and Golang Weekly. The Cooper Press Ltd. Terms and Conditions for these publications are incorporated herein, and Advertiser agrees to comply with such terms:

ACCEPTANCE OF ADVERTISING

All materials supplied for use in advertising or sponsorship insertions are subject to the review and approval of the Publisher. The Publisher may, in its discretion, suggest and require edits or reject material submitted by the Advertiser with rationale.

The Publisher will endeavor to publish advertisements promptly and accurately. The Advertiser shall notify the Publisher of any errors immediately. Upon notification, errors will be corrected in Publisher's archives, as well as in the next available comparable insertion within the same order, as determined by the Publisher. From time to time and in exceptional situations, the Publisher may choose to publish an issue late or on a different day to its typical publication, in which case insertions by the Advertiser may be published on a different date to that ordered. In such cases, the Advertiser will be notified in advance. If an issue is cancelled entirely, remedies as outlined in 'Cancellation' will apply.

MATERIAL SPECIFICATIONS

Specifications for the material included in any insertion are provided by the Publisher in communications associated with all orders but may also be referenced at <https://cooperpress.com/specs>. All submissions to the Publisher hereunder will comply with all such applicable elements. The Advertiser acknowledges that time is of the essence in providing the foregoing to the Publisher, and the Advertiser's failure to meet the time requirements or any applicable specifications may delay or prevent delivery of the insertions hereunder. Unless otherwise specified, all materials for a specific insertion must be supplied 2 full-days prior to the publication date for that specific insertion. In the case of late or non-supply of material, previously used material may be reused by the Publisher, or in the case of a total non-supply, the Publisher may produce material it considers suitable for publication on behalf of the Advertiser.

CANCELLATION

Prior to the publication of any scheduled insertion in a single order, either party may cancel the order (or any part thereof) and/or this Agreement at any time on ____ days' written notice to the other party (if the foregoing blank is not filled in, the parties agree the stated time limit shall be thirty (30) days). If the Advertiser has already paid the Publisher for the order and no scheduled insertion has been published or is due to be published in the following 7 days, the Publisher will refund to the Advertiser the full fees presently paid unless other arrangements have been made.

If the Publisher fails to run an insertion (even if late) or ceases to publish a publication, the Advertiser may demand that the Publisher refund any fees applicable to that insertion, and in the case of ceasing a publication, may demand a refund of all fees applicable to that publication.

IF EITHER PARTY CANCELS, ADVERTISER'S SOLE REMEDY WILL BE A REFUND OF ANY PRE-PAID FEES IN EXCESS OF THE FEES OWED TO COOPER PRESS LTD. FOR THE INSERTIONS DELIVERED PRIOR TO CANCELLATION OR TO BE DELIVERED IN THE FOLLOWING 7 DAYS.

RESPONSIBILITY FOR MATERIAL

The Advertiser represents and warrants to the Publisher that it is authorized to publish the contents and subject matter supplied in all materials (including, without limitation, all text and graphics), and that all materials comply with applicable laws and regulations. The Advertiser represents it has the corporate rights, power and authority to enter into this Agreement and to perform the acts required of it hereunder, and its execution of this Agreement does not and will not violate any agreement to which it is a party or by which it is otherwise bound, or any applicable law, rule or regulation. In consideration of the publication of advertisements, the Advertiser agrees unconditionally to indemnify and hold harmless Cooper Press Ltd. and its affiliates from and against any and all loss, liability and expense suffered or incurred by reason of any claims, proceedings or suits based on or arising out of the contents or subject matter of such advertising material, including without limitation claims for defamation, violation of rights of publicity and/or privacy, copyright infringement, and trademark infringement and/or a breach by Advertiser of any representation, warranty or obligation to be performed by Advertiser hereunder.

COMMITMENT AND PAYMENT TERMS

By submitting an order (not merely a request for proposal or quote) for advertising to the Publisher, the Advertiser agrees to be liable for the cost of such order. Unless otherwise agreed, Advertiser will pay the Publisher the total fee due for all insertions on a single insertion order in a single payment within 30 days. In addition to all other rights and remedies, the Publisher may cancel and remove any insertions that are not paid for in the above time period.

NO REPRESENTATIONS, WARRANTIES OR DAMAGES

ALL SERVICES PROVIDED TO THE ADVERTISER THAT ARE THE SUBJECT OF THESE TERMS AND CONDITIONS ARE PROVIDED WITHOUT WARRANTIES OF ANY NATURE, AND COOPER PRESS LTD. DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL COOPER PRESS LTD. BE LIABLE TO ADVERTISER FOR AN AMOUNT IN EXCESS OF THE TOTAL DOLLAR AMOUNT ACTUALLY RECEIVED BY COOPER PRESS LTD. FROM ADVERTISER FOR THE INSERTIONS AT ISSUE.

GENERAL PROVISIONS

Unless otherwise agreed, these terms and conditions are governed by the laws of the United Kingdom of Great Britain and Northern Ireland. No joint venture, partnership, employment, or agency relationship exists between Advertiser and Publisher. If any provision of these standard terms and conditions is found invalid or unenforceable pursuant to judicial decree or decision, the remaining provisions shall remain valid and enforceable, and the unenforceable provisions shall be deemed modified to the extent necessary to make them enforceable.

GENERAL DATA PROTECTION REGULATION

The GDPR (General Data Protection Regulation) is a set of European privacy laws that came into force in May 2018 and protects the personally identifiable information of EU data subjects (typically EU residents). You can learn more about how we abide by these laws at: cooperpress.com/gdpr-sponsors

All notices to Cooper Press Ltd. relating to any legal claims or matters should be made in writing to: COOPER PRESS LTD., FAIRFIELD ENTERPRISE CENTRE, LOUTH, UNITED KINGDOM, LN11 0LS - alternatively, email communications may be used to peter@cooperpress.com but such notices may only be considered delivered upon response and confirmation of acceptance by an official representative of Cooper Press Ltd.
